NYMNPA

Planning System Maintenance Notice: Due to a system upgrade, our planning system will be unavailable from 18 February 2026 to 2 March 2026. During this period, all planned-related services will be temporarily unavailable. They apologise for any inconvenience this may cause and appreciate your understanding.

Planning Consultation Responses: From 02 March 2026, there will be a slight change to the way you respond to planning consultations. Consultation emails will include a direct link to the relevant planning application on our new Public Portal, making it easier to view application details in one place. Over the following 12 months, they will gradually encourage the use of the Public Portal for submitting planning comments. This transition period is intended to give everyone time to become familiar with the new system, and support will be available throughout. They appreciate your cooperation and support as we introduce this improvement, which is designed to make the consultation process clearer and more accessible for all.

Access to Local Consultation Platform: Access to the existing Local Consultation Platform will close on 18 February 2026. As part of the new planning system, a Public Consultation Platform will be introduced, allowing you to view and keep track of all your planning consultations in one convenient place. If you currently use the existing platform and would like login details for the new system, please let me know and I will be happy to assist. Following 18 February 2026, any outstanding consultation responses can still be submitted by emailing planning@northyorkmoors.org.uk. Support will remain available throughout this transition, and we appreciate your cooperation as we move to the new system.

In addition to the above, please note that **national planning application fees are set to rise on 01 April 2026**. A revised fee schedule will be published on our website shortly, however in the meantime you may wish to refer to the [Planning Portal website](#) for detailed information on the fee increases.
